Summary

I am a Software Developer who cares about my craft. I prefer to work in an agile team environment where knowledge is valued and shared. I have a fundamental understanding of programming that allows me to succeed regardless of language or platform.

Languages & Tools

Languages: C#, JavaScript, Python, Java, VB.NET, C, Ruby, Scheme, SQL, HTML, CSS, shell scripting
Frameworks: ASP.NET, Django, Ruby on Rails
Software: Vim, Visual Studio, Subversion, IIS, Apache, SQL Server, MSBuild, Jenkins, redmine
OSes: Linux, Windows

Experience

- 2005 – Now **Sr. Programmer Analyst**, *Cameron Insurance Companies*, Cameron, MO.
- Lead developer on a team comprised of four .NET developers, four COBOL programmers, and an outside vendor working on a three year mainframe policy system replacement project. During this project I utilized my skills in communication, project management, object oriented analysis and design, software construction, shell scripting, and debugging to provide an effective solution.
 - Led my team to adopt modern development practices including: code generation, unit testing, automated builds, automated deployment, proper version control, and code reviews.
 - Mentored other developers and learned from them as well.
 - Wrote a business object framework which is used to enforce complex underwriting rules.
 - Designed, wrote, and maintained an ASP.NET web portal that provides access to data and services on mainframe systems.
 - Implemented a web service that uses industry standard XML to provide real time rating services to third party comparative raters.
 - Participated in the full software development process on over 10 projects.
- 2001 – 2005 **Sr. System Administrator**, *Shook, Hardy, & Bacon*, Kansas City, MO.
- Developed an application that tracks hardware, software, and drive usage on 250 servers.
 - Wrote scripts to automate repetitive system administration tasks.

Education

2001 – 2004 **Bachelor of Science in Computer Information Systems**, *DeVry University*, Kansas City, MO.

Additional Info

- I am an avid reader of programming books. My favorite is "The Pragmatic Programmer".
- My first computer was an Apple II.
- This résumé was compiled from L^AT_EX.
