Summary

I am a software developer who cares about my craft and strive to make software people use and love. I have a fundamental understanding of programming allowing me to succeed regardless of language or platform.

Languages & Tools

Languages: C#, JavaScript, Python, Java, VB.NET, C, Ruby, Scheme, SQL, HTML, CSS, shell scripting
Frameworks: ASP.NET, .NET Core, Nancy, WPF, Django, Ruby on Rails
Software: Vim, Visual Studio, Git, IIS, Apache, SQL Server, PostgreSQL, MSBuild, Jenkins, Redmine

Experience

- 2012 – Now **Sr. Software Engineer**, *Rosnet*, Parkville, MO.
- Designed and implemented Rosnet's public API. api.rosnet.com
 - Designed and implemented Rosnet's POS integration platform using ASP.NET, windows services, SignalR, & WPF. This system has clients running on thousands of machines and integrates 25 different POS systems with Rosnet. It provides near real-time data and services ~5,000 requests per minute.
 - Filled a dev ops role by setting up and maintaining automated builds, deployments, cross platform code search, and SQL server version control.
 - Added new features and performed maintenance on various apps using a variety of languages and frameworks including: ASP.NET MVC, Angular, React, Knockout, Cold Fusion, & VB.
- 2005 – 2012 **Sr. Programmer Analyst**, *Cameron Insurance Companies*, Cameron, MO.
- Completed a three year mainframe policy system replacement project. My role was technical lead on a team comprised of four .NET developers, four COBOL programmers, and an outside vendor. During this project I utilized my skills in communication, project management, and object oriented analysis and design to help provide an effective solution.
 - Designed and implemented an ASP.NET app that provide access to data and services on mainframe systems and integrate with third party comparative raters.
- 2001 – 2005 **Sr. System Administrator**, *Shook, Hardy, & Bacon*, Kansas City, MO.
- Developed various applications and scripts to automate repetitive system administration tasks.

Education

2001 – 2004 **Bachelor of Science in Computer Information Systems**, *DeVry University*, Kansas City, MO.

Nerd Cred

- I am an avid reader of programming books. My favorite is "The Pragmatic Programmer".
- I created Schema Zen to simplify version control of SQL Server schemas.
- I created ReGitLint to simplify automated C# linting.
- My first computer was an Apple II.
- This résumé was compiled from L^AT_EX.
